Objective

Motivated Information Technology fresher with hands-on experience across web development, machine learning, and API integration. Skilled at building and deploying full-stack applications independently, with a strong foundation in problem solving and a track record of shipping working projects end-to-end.

Education

B.Tech Information Technology , Sri Sai Ram Engineering College, Chennai CGPA: 7.56	2022 – 2026
12th Std , St. John's Matriculation Hr. Sec. School, Chennai Percentage: 77.6%	2020 – 2022
10th Std , Nappinai Matriculation School Percentage: 68.2%	2019 – 2020

Skills

Programming: Python, Java, C, SQL

Web: HTML, CSS, JavaScript

Tools & Concepts: API Integration, Streamlit, Web Development, Machine Learning Basics, Problem Solving

Soft Skills: Fast Learner, Adaptability, Critical Thinking

Internships

AI & ML Intern , Gradtwinn Assisted in deploying and testing 3+ machine learning models for real-time inference, collaborating with a cross-functional team to validate model accuracy and performance.	Mar 2026 – May 2026
Web Developer Intern , Codtech IT Solutions Pvt. Ltd. Engineered a responsive weather web application using HTML, CSS, and JavaScript, integrating a public API to display real-time data for 5+ cities with robust error handling.	Dec 2025 – Jan 2026
Web Developer Intern , Industrial Design and Innovation Contributed to front-end UI and back-end API integration for an internal web application, improving reliability across 10+ interactive components.	June 2025 – July 2025

Projects

Retail Analytics Web Application Built and deployed a full-stack retail analytics platform solo, applying association rule mining and K-Means clustering to segment 1,000+ customer transactions; handled the complete pipeline from data processing to UI design and deployment on Streamlit Community Cloud. GitHub: RetailAnalyticsApp · Live Demo	Python, Streamlit
Multilingual Hand Gesture Recognition using NLP & CV Developed a computer vision and NLP-based system enabling real-time sign language translation across multiple languages to support communication for deaf and mute individuals.	
Real-Time Chat Application Created a real-time chat application supporting bidirectional communication and room-based messaging for 20+ concurrent users.	Socket.IO
Real-Time Collaborative Code Editor Designed a multi-user code editor enabling real-time synchronization across 5+ simultaneous editing sessions.	WebSockets

Certifications

- AWS Cloud Certificate – Infosys Foundation
- AR/VR Training (Monolith)
- Big Data Computing (NPTEL)
- Full Stack Development (Revamp)
- Data Science for ML (Microsoft)
- IEEE Conference – Research Paper Published

Participations

- Diamond Jubilee Jamboree 2025
- Revamp Hackathon 2.0
- IEEE Educational Society Leadership Summit 2024
